Dear Mr. Seidel:

Per previous discussions regarding the proposed telecommunications tower at the above site, Eco-Site, in consultation with Trileaf, is committed to preparing and implementing a Raptor/Corvid deterrence plan as part of the overall Sage-Grouse Mitigation Plan. It is our understanding that the deterrence plan would be utilized to decrease the calculated loss of functional habitat acreage, and that the deterrence plan will be designed with input from ODFW and will be approved by ODFW prior to inclusion in the mitigation plan.

If the above statement is agreeable per our previous discussions, we would appreciate a vote in favor of support at the Malheur County Planning Commission meeting on May 23, 2019.

Please let me know if you need additional information or have any questions. Thank you for your assistance in this regard.

Sincerely,

*David Callender*
