A. REFERENCE INFORMATION

1. Legal Name of Applicant: Huntington Travel Plaza, LLC

2. Is the name of the applicant the owner of the facility? Yes No

3. Legal Status of Applicant: Federal State Public Private Other (specify):

4. Name of Facility (if different than legal name): Huntington Travel Plaza, LLC

5. Facility SIC Code: 5541 or, NAICS code: 447110

B. FACILITY LOCATION

1. Physical Street Address: 5945 US Highway 30
City: Huntington State: Oregon Zip Code: 97907 County: Malheur

2. Latitude: 44 degrees, 17 minutes, 35.02 seconds
Longitude: 117 degrees, 13 minutes, 26.82 seconds

3. Township: 15 South Section: 4
Range: 45 East Tax Lot # 301 & 306

C. FACILITY CONTACTS

1. RESPONSIBLE OFFICIAL
Full Name: Joseph Alee Telephone # 1-770-331-4200
Mailing Address: 486 NW 9th Street City: Ontario State: Oregon Zip Code: 97914

2. FACILITY CONTACT
Full Name: Joseph Alee Telephone # 1-770-331-4200
Mailing Address: 486 NW 9th Street City: Ontario State: OR Zip Code: 97914

3. INVOICE TO
Full Name: Joseph Alee Telephone # 1-770-331-4200
Billing Address: 486 NW 9th Street City: Ontario State: OR Zip Code: 97914

D. GENERAL INFORMATION

1. Briefly describe the proposed facility, type of wastewater, and primary method of wastewater treatment and disposal:
The new facility will operate in the same manner as prior facilities located on the site. The facility will include a gas station/truck stop, with a convenience store, a restaurant, and a fast food facility. A motel will also be located on the site in the near future. All wastewater will flow via gravity to a lift station, then pumped to evaporation ponds present on the site. There is no discharge or seepage of wastewater.
Does the proposed facility include a graywater reuse and disposal system? Yes No

2. Is the proposed facility located within the service boundary of a municipal sanitary sewerage system? Yes No
If "Yes", explain why this discharge is not being connected to a sanitary sewer:
There is no municipal system present in the project area. The closest municipal system is nearly five miles away to the north (City of Huntington, Oregon).

3. Does the proposed facility described in D.1 discharge wastewater to an Underground Injection Control (UIC) system? Yes No

LEGAL NAME OF APPLICANT:

4. Is there any other wash water or wastewater that will be or is being discharged to a UIC system not described in D.1? If "Yes", also provide the information required in *Section C, Preliminary Engineering Report/Facility Plan for each UIC*. Yes No

5. Does or will stormwater at the facility be drained to a UIC system other than described by this application? If "Yes", also complete *UIC Registration Form: Stormwater Drainage Systems* (enclosed this with this application). Yes No

E. OTHER DEQ OR PUBLIC AGENCY PERMITS

List all other DEQ or public agency permits issued to or applied for this project:

The applicant has applied for and received a Limited Water Use License from OWRD for use of on site wells for construction.

The applicant has also applied for and is waiting for approval of a Well Permit from OWRD to utilize on site wells for water service to the facility.

The applicant has also completed preliminary designs and has applied for building permits.

The applicant has also received approval from ODOT to modify the center entrance slightly to the south so it lines up with the exit from the port of entry facility across Highway 30 from the site.

The applicant will be preparing a DEQ 1200-C storm water permit and ESCP for storm water management during construction.

F. PRELIMINARY ENGINEERING REPORT/FACILITY PLAN

Attach two copies of a Preliminary Engineering Report or Facility Plan Report that fully describes the proposed project using written discussion, maps, diagrams, and any other necessary materials. The report must contain the following information (see instructions for more detail):

1. Complete description of the proposal.
2. Location of the project, adjacent facilities, and waterways on a USGS topographic map. Include the location and latitude/longitude for all UIC wastewater systems on this map. Also provide a tax lot map for the project.
3. Schedule for development, including future expansion plans if applicable.
4. Schematic diagrams of waste streams and treatment/disposal facilities. Include the source and quantity of drinking water and water used for processing or manufacturing.
5. Wastewater characterization.
6. Plans for disposal of solid waste and sludges.
7. Site evaluation report prepared as outlined by OAR 340-071-0150 (onsite sewage disposal or graywater reuse and disposal systems only).
8. Groundwater information for all areas where wastewater or sludge will be stored or disposed.
9. Evaluation of groundwater and surface water impacts and the steps that will be taken to prevent impacts from occurring.
10. Operation and maintenance plan that specifies the normal operation parameters of the system.

G. LAND USE COMPATIBILITY STATEMENT

Attach a complete Land Use Compatibility Statement (LUCS) signed by the local land use authority. The application will not be processed without evidence that the proposal is approved by the local land use authority and meets statewide planning goals.

H. UNDERGROUND INJECTION CONTROL (UIC) REGISTRATION

Federal and state regulations require that all UIC systems be registered with DEQ. By completing this application, your wastewater UIC systems (UIC) will be registered with the DEQ and you will be sent a UIC registration confirmation letter to be maintained at the facility. You will be informed by DEQ of any additional UIC regulations that are applicable to your UIC system once this application has been reviewed.
