RE: Bryon Clark Parcel Partition

I have attached a document which indicates an outline of the existing water right (outlined in blue) on this parcel of land. If the partition does not incorporate any of the water rights; no requirement will need to be completed for the water rights. Although, both Mr. Clark & Mr. Child, will need to come into the office and sign off on an easement for the pipeline that parallels 6th Ave. before the District can sign off on the partition.

If you have any questions, please contact our office at 541.473.3243.

Thank you,

Jessi Hansen
Vale OR Irrigation District
