May 14, 2020

Eric Evans, Planning Director

I have reviewed the application from Lisa Kittle for the proposed horse training business. The proposed structures appear to fall under the Ag Exempt limitations, OAR 455.315. If the applicant meets the ag exempt status plumbing, mechanical and electrical permits are still required. The electrical work proposed in the application will need to be installed by an Oregon Licensed Electrician.

The applicant states that no restroom will be provided in these new structures however they will have the public on site for riding lessons. If they choose to add restrooms they will need to obtain the proper permits.

If there are any questions please let me know.

Thank you

Adele Schaffeld, CBO
