Planning and Zoning Committee:

I am selling 17.5 acres of my property on the corner of Kingman and Beet Dump Roads, to Ryan and Calli Wynn. Calli is my daughter, and Ryan is my son-in-law. This lot has been in our family for a long time. I bought it from my father when he retired. This piece is and always has been unused ground. There are no water rights to this lot. I would like to see it go to family, and that they can continue to build a life for themselves and their girls. I raised my girls here, and I am happy that they continue to live in the community. I want to see them to continue to thrive, by owning something of their own. They are both hardworking members of the Adrian community. Keeping the community clean and safe is a priority for them, as is to keep it thriving for continued years.

I live in a neighboring home to the property and I do not have any objections to them living near me. I hope you consider re-zoning this for them.

Thank you very much,

Kelly Bennett
