Hey eric just thought i would shoot you an email about the proposed pit site on jasmine hill . I talked with dave yesterday and he put some really good stipulations together about conditions of the permit if passed and there wouldn't really be much of any concerns if it wasn't on that hill. Peterson and jasmine hill are the two worst scenarios in the district , so i just was letting you know to maybe give a good look at that hill especially on the lower corner thats pretty aggressive and at the bottom of the 11.5 percent grade. Thanks Eric and have a good day
