Darren,

I am concerned that your application does not contain sufficient information in regards to Malheur County Code 6-6-8-4. The application is pretty sparse on information in this section. But, it does have an answer in each of those sections, and I will deem it complete. Honestly, I am concerned the planning commission might deny it based on not having enough information. You will have to wait 6 months before you can reapply pursuant to County Code. But, if that is your desire, then let's do it.

Thanks,

Do you have everything you need to put me on for April?

Thanks,
Darren Lee

Update.

I dug the test holes onsite last week and am awaiting a result on the estimated gravel quantity analysis required for goal5. I also submitted a check for \$500.00 for the application. I will submit the remaining required documents as soon as they arrive. When is the next P and Z meeting I can get in on?

Thanks,
Darren Lee
