RE: Permit # 2021-12-001
Malheur County Reference # 13520

We have concerns about this permit

- #1. The letter and plan show three parcels. However, Vale Oregon Irrigation District informed us there are plans for several more sites.
- #2. We understood the property was approved for 5 acre parcels, not 2 acre parcels. We don't like to see small farms broken up into subdivisions.
- #3. The aquifer that supplies local wells is somewhat limited. We're concerned many more draws on the source may cause shortages.
- #4. We also worry about uncontrolled pets harassing our livestock. We have had problems with this in the past.

We would like to find out more about how these things will affect the surrounding property owners.
