Tatiana Burgess
Malheur Planning
Vale, OR. 97918

To whom it may concern of the Malheur Planning commission, Mr. Randy Oldenkamp of 473 Jacobson Gulch Rd. has asked for review and comments on the use of his property for an event center. I visited the site and it appears to meet the requirements for the use as described by him. The property has one house and a pole barn shop currently. Mr. Oldenkamp told me they will not be having indoor events for now and possibly in the future will be building a pole barn shed for some covering. They have an adequate driveway with a turnaround area, and he stated that in the future they are going to make a drive access out to Oak Rd. also. The fire department will support this approval for the event center at this time and will need to reevaluate the property for future expansion.

Thank you,

Terry Leighton Fire Chief
