In response to the request put forth by Mr. McKrola below, Oregon Department of Fish and Wildlife (ODFW) has reviewed the referenced Conditional Use Permit application and finds no imminent interference of traditional fish and wildlife use of the land as an effect of proposed improvements contained therein. The property is directly adjacent to the Snake River, a popular waterway for big game, waterfowl, and upland bird hunting, and we do advise stakeholders of the potential for these activities occurring in the vicinity of the property and structures on it.

ODFW appreciates the opportunity to review the application and offer input on effects to fish and wildlife. Please inform me if this response needs to be formatted in a different way to suffice for planning purposes.

Tucker Freeman

Tucker,

You can find the application on our website at: <https://www.malheurco.org/wp-content/uploads/Departments/Planning/Documents/2022/5-May/White-2022-04-013-NFD-NFP-10577.pdf>

We post all of our CUP applications (usually at least 7 days prior to the hearing) on our website.

Let me know if you have any questions.

Thank you,

Eric Evans, REHS

**Subject:** FW: Proposed Non-farm Dwellings

Eric,

Has an official application been filed for the request below? If so, could I get a look at it?

Also, you can replace Phil with me for any future requests of the sort as I have stepped into his position and would like to take as much off his shoulders as possible. I can always refer to him should I have questions on the matters.

**Subject:** Proposed Non-farm Dwellings

Hi Philip,

Please find the attached document. A house is proposed at the top most bank of Parcel 2 some distance uphill from the riverfront. The dashed line indicates the top of the bank. The other house on Parcel 3 is much higher up on a hilltop.

The Malheur County Planning Department asked for a letter from ODFW regarding any concerns for the proposed non-farm partition and non-farm dwellings. Will you please provide a letter?

Thank you,

Derrick McKrola, PLS
