To Whom it may concern.

Riverside Irrigation District, LTD met on September 20, 2023 for our board meeting. The directors agreed that we would move 1 acre of water from the East parcel of property and add it to the parcel on the West side of Boster Lane. This will create a dry section of 1 acre on the East side of Boster Lane. We do not have any problems with Charles Tracy and Carolyn Boster allowing their daughter and husband to build a house on the dry portion of the East parcel of property.

Sincerely

*Neil Allison*
