to FREEMAN, me

Hi Jason,

I reviewed the boundary of your proposed private hunting preserve, and I don't see any issues with it. It is under the maximum size, it is one continuous tract, it is not within a ½ mile of any other preserve, park, wilderness area, refuge, or wildlife area. I have cc'd Tucker Freeman on this email. He is the local wildlife biologist out of Ontario. Unless Tucker has any issues with your proposed preserve, you can proceed forward with getting county approval.
