Garrett,

Thanks for contacting me. The Vale Rangeland Fire Protection Association welcomes the Grassy Mountain Mine to become a member of our association since your mine site is within our protection boundary. If Grassy Mountain Mine would like to become a member. We would ask if you could send a representative to our annual meeting March 6 2019 at the vale library at 6pm. Also If Grassy Mountain Mine becomes a member we would like to see if we or any other agency that is working with us could have access to you water supply at a site outside of the fence of the mine site for rangeland fire protection.

Thanks!

Bobby

Subject: Grassy Mountain Mine [IWOV-pdx.FID3166246]

Bobby,

Thanks very much for taking my call today. I double checked with our planning consultant and confirmed that the mine site will have its own fire suppression systems in the buildings and hydrants on the outside of the buildings to be used to contain any fire to the structure or rangeland within the mine boundary. I have attached a site plan for your information. It does not specifically show the hydrants but gives you an idea of what the project will look like.

As I said, we need a confirmation from the Vale Rangeland Fire Protection Association of two things: (1) whether the Association has any concerns about the mine and (2) whether the mine can be part of the District. Based on our call, I understand that the Association is not concerned and that we can be a member.

When you have a chance, please 'reply all' to this email to confirm my understand and provide any other comments you may have, or email Eric Evans at eric.evans@malheurco.org. Please feel free to call me if you have any questions (my contact info is below).

Thanks!

Garrett
